

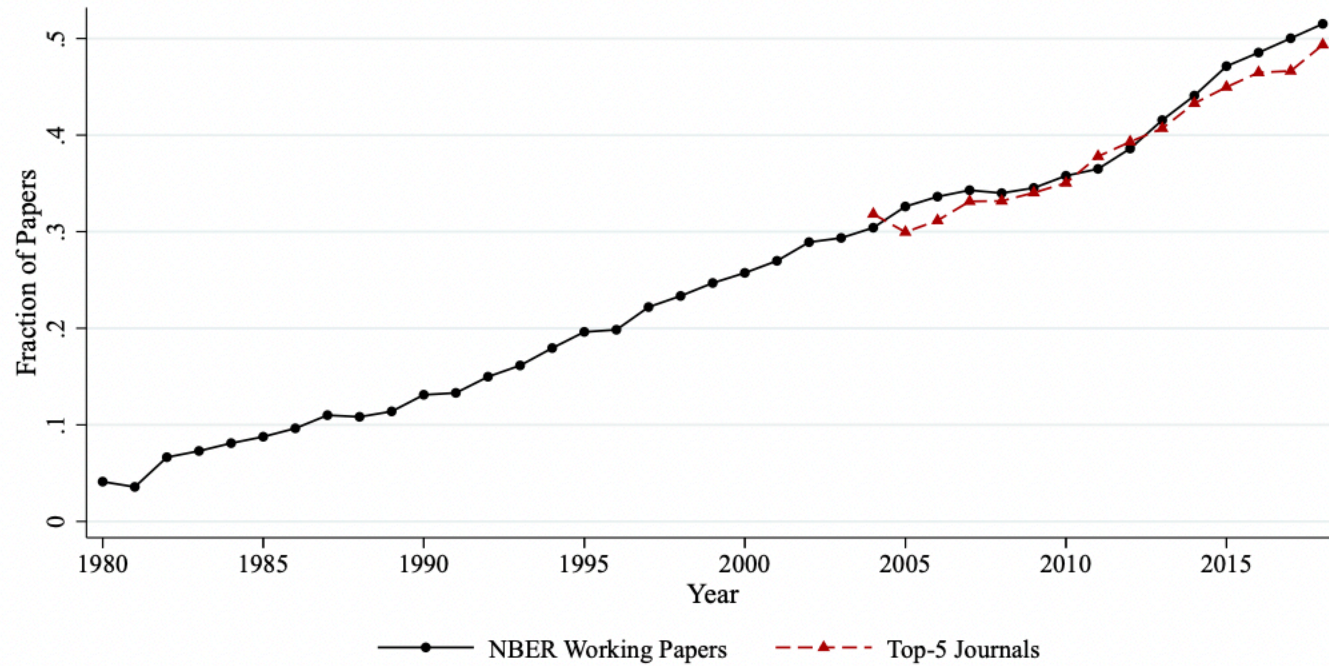

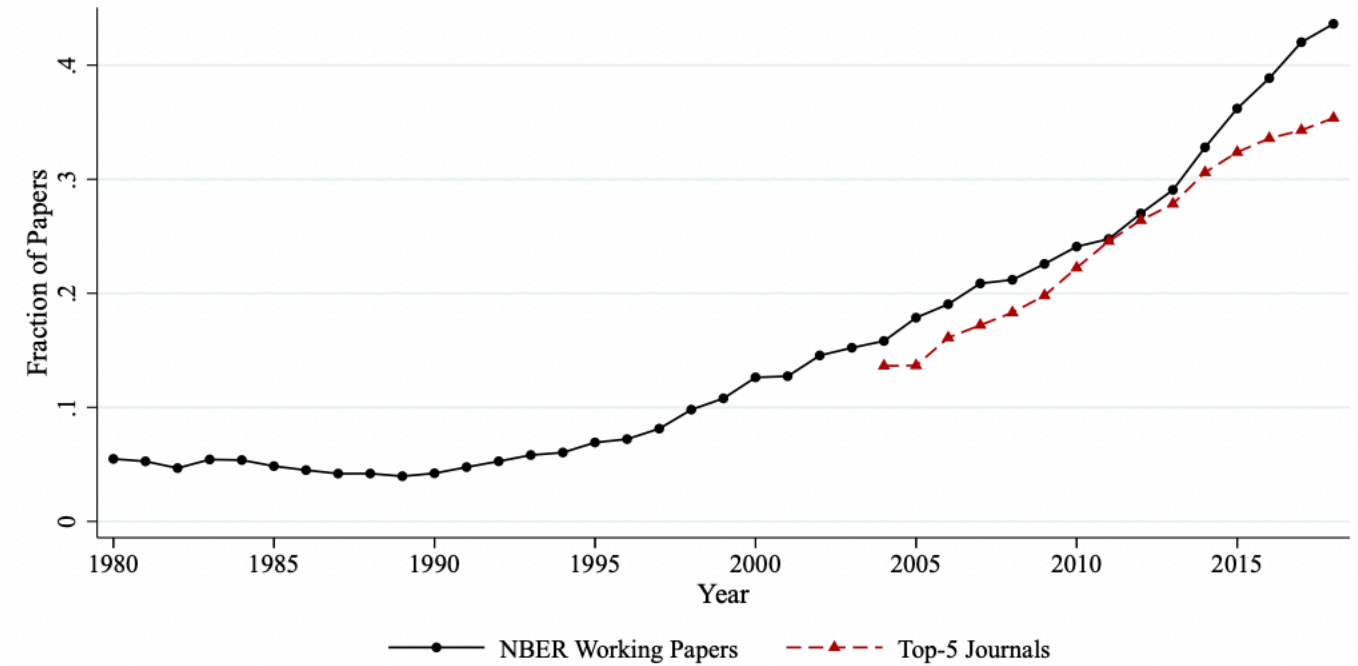

Figure II: The Credibility Revolution

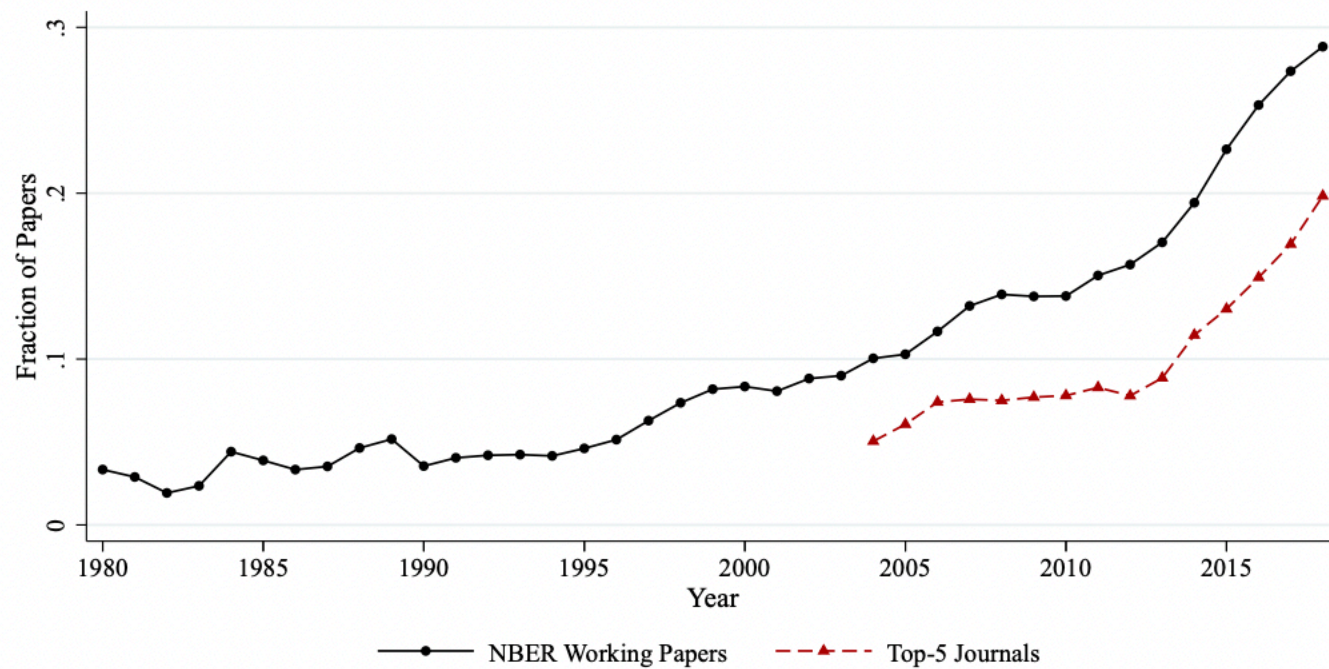

### A: Identification

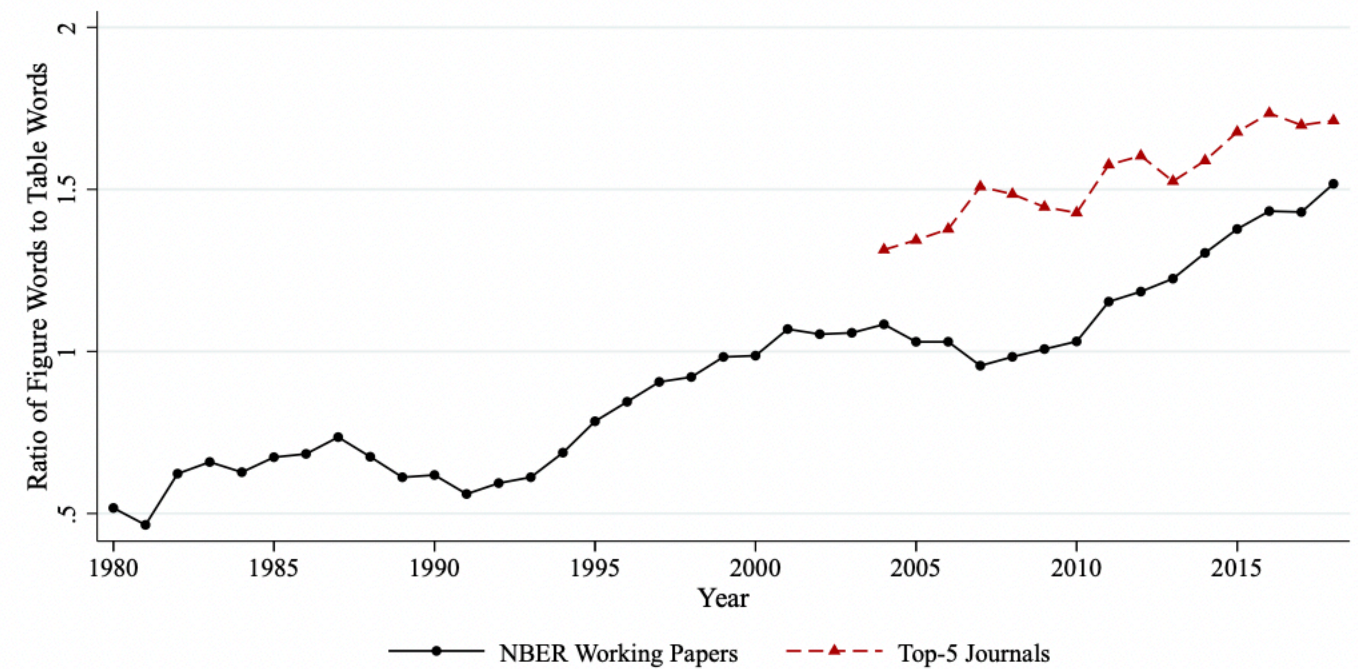

### B: All Experimental and Quasi-Experimental Methods

### C: Administrative Data

### D: Graphical Revolution

Notes: This figure shows different dimensions of the “credibility revolution” in economics: Identification (Panel A), All Experimental and Quasi-Experimental Methods (Panel B), Administrative Data (Panel C), and the Graphical Revolution (Panel D). Panel D shows the ratio of the number of ‘Figure’ terms to the number of ‘Table’ terms mentioned. See Table A.I for a list of terms. The series show 5-year moving averages.
